RECOMMENDATION LETTER

Sl. No.: № 036931

Date: 25/3/2026

It is with great enthusiasm that I recommend Mr. Ryan E. Bantu, a Mechanical Engineering student (Reg. No. 210909094) at the Manipal Institute of Technology (MIT), Manipal Academy of Higher Education. As the Director of MIT, I have had the privilege of observing Ryan's academic growth, interdisciplinary innovation, and entrepreneurial initiative. I strongly believe he is exceptionally well-prepared for graduate study at a reputed institution.

Ryan distinguishes himself through his ability to translate engineering concepts into impactful, real-world solutions. He was a core contributor to Team Kalpana, an interdisciplinary collaboration between MIT and the Manipal School of Architecture and Planning (MSAP). His team developed an innovative solution titled "Integrating Hybrid Desiccant-Peltier Air Cooler with Ceiling Fan," aimed at providing affordable and energy-efficient thermal comfort—an urgent need in developing regions.

This work earned First Prize (All India Rank 1) in the Residential Cooling Retrofitting (RCR) division at Solar Decathlon India 2024–25, one of the country's most prestigious sustainability competitions. Further underscoring the quality and impact of his work, Ryan's project was also recognized as a Runner-Up in the Forbes Marshall Outstanding Project Award 2025.

Beyond academics, Ryan has demonstrated a strong entrepreneurial mindset. He conceptualized and worked on a smart parking system integrating geofencing and geotagging technologies, addressing real-world urban challenges. His efforts were recognized when he was selected as one of the five felicitated startup founders of 2025.

Ryan's strengths lie in his interdisciplinary thinking, leadership, and commitment to innovation. I am confident that he will thrive in a rigorous academic environment and contribute meaningfully through his work.

I strongly recommend him without reservation.

Sincerely,

Cdr.(Dr.) Anil Rana
Director
Manipal Institute of Technology
Manipal Academy of Higher Education
